MURRAY'S READING for the RAIL; or Cheap Books in a Large Readable Type, to be published occasionally, and varying in prices from One Shilling and upwards. The aim and object of the Publisher, in this series, is to diminish the inconvenience and annoyance of railway travelling, by providing entertainment, instead of the ordinary and often immoral, publications which are for the most part offered by the venders of Railway Readers. He designs to introduce a class of works at once cheap, valuable, and instructive, not merely to be read on the rail-way, and thrown aside at the end of the journey, but such as shall deserve a permanent place on the shelves of the library. It will thus form an appropriate sequel to the "Home and Colonial Library."
